

Final Test Summary Report – Zero Bank – Online Banking Application

Project Overview:

- **Project Name:** Zero Bank – Online Banking Application
 - **Tested By:** Tanay Puranik
 - **Version Tested:** 1.02
 - **Test Environment:**
 - Device Type: PC
 - OS: Windows
 - Network: WiFi
 - Browser: [Chrome]
 - **Testing Period:** [19/7/25 – 25/7/25]
-

Test Execution Summary:

Total Test Cases	Passed	Failed	Blocked	In Progress
47	38	9	0	0

Defect Summary:

- **High Severity – High Priority:**

Bug ID	Test Case ID	Description
BID01	TCAS04	Transactions not displayed in savings account

- **Medium Severity – High Priority:**

Bug ID	Test Case ID	Description
BID02	TCAS13	Error not displayed; shows all transactions
BID03	TMMP16	Error expected; displays receipt & accepts amount
BID04	TMMP17	Same as BID03

Bug ID	Test Case ID	Description
BID05	TMMP18	Same as BID03
BID06	TMMP19	Same as BID03

- Medium Severity – Medium Priority:

Bug ID	Test Case ID	Description
BID07	FF06	Thank you message displayed instead of error
BID08	FF08	Same as BID07
BID09	FF09	Same as BID07

Bug Metrics Summary:

Severity	Priority	Count
High	High	1
Medium	High	5
Medium	Medium	3

Key Observations:

- Core transaction modules have serious logic flaws in transaction validations.
- Error messages are inconsistently triggered.
- UI flow and session handling are mostly stable.
- Logout functionality verified and passed.

Recommendation:

- Immediate fix for high severity and high priority bugs before release.

Final Opinion 47:

The current build is *Not Ready for Production Release* due to critical transaction-related bugs.
